

**UNITED STATES  
SECURITIES AND EXCHANGE COMMISSION  
Washington, D.C. 20549**

**FORM 8-K**

CURRENT REPORT

Pursuant to Section 13 or 15(d) of  
the Securities Exchange Act of 1934

Date of Report (Date of earliest event reported): February 3, 2022

**ALSET CAPITAL ACQUISITION CORP.**

(Exact name of registrant as specified in its charter)

Delaware

(State or other jurisdiction of incorporation)

001-41254

(Commission  
File Number)

87-3296100

(IRS Employer  
Identification No.)

4800 Montgomery Lane, Suite 210  
Bethesda, MD 20814

(Address of principal executive offices) (Zip Code)

Registrant's telephone number, including area code 301-971-3955

(Former name or former address, if changed since last report)

Check the appropriate box below if the Form 8-K filing is intended to simultaneously satisfy the filing obligation of the registrant under any of the following provisions:

- Written communications pursuant to Rule 425 under the Securities Act (17 CFR 230.425)
- Soliciting material pursuant to Rule 14a-12 under the Exchange Act (17 CFR 240.14a-12)
- Pre-commencement communications pursuant to Rule 14d-2(b) under the Exchange Act (17 CFR 240.14d-2(b))
- Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

Securities registered pursuant to Section 12(b) of the Act:

<u>Title of Each Class</u>	<u>Trading Symbol(s)</u>	<u>Name of Each Exchange on Which Registered</u>
Units, each consisting of one share of Class A Common Stock, one-half of one Redeemable Warrant and one Right	ACAXU	The Nasdaq Stock Market LLC
Class A Common Stock, par value \$0.0001 per share	ACAX	The Nasdaq Stock Market LLC
Redeemable Warrants, each whole warrant exercisable for one share of Class A Common Stock at an exercise price of \$11.50	ACAXW	The Nasdaq Stock Market LLC
Rights, each entitling the holder to receive one-tenth of one share of Class A Common Stock	ACAXR	The Nasdaq Stock Market LLC

Indicate by check mark whether the registrant is an emerging growth company as defined in Rule 405 of the Securities Act of 1933 (§230.405 of this chapter) or Rule 12b-2 of the Securities Exchange Act of 1934 (§240.12b-2 of this chapter).

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

**Item 8.01. Other Events**

On January 24, 2022, Alset Capital Acquisition Corp. a Delaware corporation (the “Company”) completed its initial public offering (the “Offering”) of 8,625,000 units (“Units”), including the issuance of 1,125,000 Units as a result of the underwriter’s full exercise of its over-allotment option. Each Unit consists of one share of Class A common stock, par value \$0.0001 per share, one-half of one redeemable warrant (“Warrant”) and one right (“Right”). Each whole Warrant entitles the holder to purchase one share of Class A common stock at an exercise price of \$11.50 per share, subject to adjustment. Each Right entitles the holder thereof to receive one-tenth (1/10) of one share of Class A common stock upon the consummation of an initial business combination. Such Units were registered pursuant to the Company’s registration statement on Form S-1 (File Nos. 333-261494). The Units were sold at an offering price of \$10.00 per Unit, generating gross proceeds of \$86,250,000.

As previously reported on a Current Report on Form 8-K of the Company, on January 31, 2022, simultaneously with the consummation of the Offering, the Company completed a private placement of an aggregate of 473,750 units (the “Private Placement Units”), including the issuance of 33,750 Private Placement Units in connection with the underwriter’s full exercise of its over-allotment option, at a price of \$10.00 per Private Placement Unit, generating total gross proceeds of \$4,735,500 (the “Private Placement”).

On February 3, 2022, a total of \$87,112,500, comprised of the proceeds from the Offering and the proceeds of the Private Placement, net of the underwriting commissions, discounts, and offering expenses, was deposited in a trust account established for the benefit of the Company’s public stockholders. An audited balance sheet as of February 3, 2022 reflecting receipt of the proceeds upon consummation of the Offering and the Private Placement has been issued by the Company and is attached hereto as Exhibit 99.1.

**REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

To the Shareholders and Board of Directors of  
Alset Capital Acquisition Corp.

***Opinion on the Financial Statements***

We have audited the accompanying balance sheet of Alset Capital Acquisition Corp.( the “Company”) as of February 3, 2022, and the related notes (collectively referred to as the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Company as of February 3, 2022, in conformity with accounting principles generally accepted in the United States of America.

***Basis for Opinion***

These financial statements are the responsibility of the Company’s management. Our responsibility is to express an opinion on the Company’s financial statements based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (“PCAOB”) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audit we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Company’s internal control over financial reporting. Accordingly, we express no such opinion.

Our audit included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audit provide a reasonable basis for our opinion.

## ALSET CAPITAL ACQUISITION CORP.

### NOTES TO THE FINANCIAL STATEMENT

#### NOTE 1 — DESCRIPTION OF ORGANIZATION, BUSINESS OPERATIONS AND GOING CONCERN

Alset Capital Acquisition Corp. (the “Company”) was incorporated in Delaware on October 20, 2021. The Company was formed for the purpose of effecting a merger, capital stock exchange, asset acquisition, stock purchase, reorganization or similar business combination with one or more businesses (the “Business Combination”). The Company is not limited to a particular industry or sector for purposes of consummating a Business Combination. The Company is an early stage and emerging growth company and, as such, the Company is subject to all of the risks associated with early stage and emerging growth companies.

As of February 3, 2022, the Company had not commenced any operations. All activity for the period from October 20, 2021 (inception) through February 3, 2022 relates to the Company’s formation and the initial public offering (“Initial Public Offering”), which is described below. The Company will not generate any operating revenues until after the completion of its initial Business Combination, at the earliest. The Company will generate non-operating income in the form of interest income from the proceeds derived from the Initial Public Offering. The Company has selected November 30 as its fiscal year end.

The registration statement for the Company’s Initial Public Offering was declared effective on January 31, 2022. On February 3, 2022, the Company consummated the Initial Public Offering of 8,625,000 units (“Units” and, with respect to the shares of common stock included in the Units being offered, the “Public Shares”), generating gross proceeds of \$86,250,000, which is described in Note 3.

Simultaneously with the closing of the Initial Public Offering, the Company consummated the private sale of 473,750 units (the “Private Placement Units”) at a price of \$10.00 per Private Placement Unit in private placements to Alset Acquisition Sponsor LLC (the “Sponsor”) generating gross proceeds to the Company in the amount of \$4,737,500.

The Company’s management has broad discretion with respect to the specific application of the net proceeds of the Proposed Public Offering and the sale of Private Placement Units, although substantially all of the net proceeds are intended to be applied generally toward consummating a Business Combination. There is no assurance that the Company will be able to complete a Business Combination successfully. The Company must complete one or more initial Business Combinations with one or more operating businesses or assets with a fair market value equal to at least 80% of the net assets held in the Trust Account (as defined below) (excluding the deferred underwriting commissions and taxes payable on the interest earned on the Trust Account). The Company will only complete a Business Combination if the post-transaction company owns or acquires 50% or more of the outstanding voting securities of the target or otherwise acquires a controlling interest in the target business sufficient for it not to be required to register as an investment company under the Investment Company Act of 1940, as amended (the “Investment Company Act”). Upon the closing of the Initial Public Offering, management has agreed that an amount equal to at least \$10.10 per Unit sold in the Initial Public Offering, including proceeds of the Private Placement Units, will be held in a trust account (“Trust Account”), located in the United States and invested only in U.S. government securities, within the meaning set forth in Section 2(a)(16) of the Investment Company Act, with a maturity of 185 days or less or in any open-ended investment company that holds itself out as a money market fund selected by the Company meeting certain conditions of Rule 2a-7 of the Investment Company Act, as determined by the Company, until the earlier of: (i) the completion of a Business Combination and (ii) the distribution of the funds held in the Trust Account, as described below.

The Company will provide the holders of the outstanding Public Shares (the “Public Stockholders”) with the opportunity to redeem all or a portion of their Public Shares either (i) in connection with a stockholder meeting called to approve the Business Combination or (ii) by means of a tender offer in connection with the Business Combination. The decision as to whether the Company will seek stockholder approval of a Business Combination or conduct a tender offer will be made by the Company. The Public Stockholders will be entitled to redeem their Public Shares for a pro rata portion of the amount then in the Trust Account (initially anticipated to be \$10.10 per Public Share, plus any pro rata interest then in the Trust Account, net of taxes payable). There will be no redemption rights upon the completion of a Business Combination with respect to the Company’s warrants. The Public Shares subject to redemption will be recorded at a redemption value and classified as temporary equity upon the completion of the Initial Public Offering in accordance with the Accounting Standards Codification (“ASC”) Topic 480 “*Distinguishing Liabilities from Equity*.”

---

All of the Public Shares contain a redemption feature which allows for the redemption of such Public Shares in connection with the Company's liquidation, if there is a stockholder vote or tender offer in connection with the Company's Business Combination and in connection with certain amendments to the Company's Certificate of Incorporation. In accordance with the rules of the U.S. Securities and Exchange Commission (the "SEC") and its guidance on redeemable equity instruments, which has been codified in ASC 480-10-S99, redemption provisions not solely within the control of a company require common stock subject to redemption to be classified outside of permanent equity. Given that the Public Shares will be issued with other freestanding instruments (i.e., public warrants), the initial carrying value of Class A common stock classified as temporary equity will be the allocated proceeds determined in accordance with ASC 470-20. The Class A common stock is subject to ASC 480-10-S99. If it is probable that the equity instrument will become redeemable, we have the option to either (i) accrete changes in the redemption value over the period from the date of issuance (or from the date that it becomes probable that the instrument will become redeemable, if later) to the earliest redemption date of the instrument or (ii) recognize changes in the redemption value immediately as they occur and adjust the carrying amount of the instrument to equal the redemption value at the end of each reporting period. We have elected to recognize the changes immediately. The accretion or remeasurement will be treated as a deemed dividend (i.e., a reduction to retained earnings, or in absence of retained earnings, additional paid-in capital). The Public Shares are redeemable and will be classified as such on the balance sheet until such date that a redemption event takes place. Redemptions of the Company's Public Shares may be subject to the satisfaction of conditions, including minimum cash conditions, pursuant to an agreement relating to the Company's Business Combination.

The Company will not redeem Public Shares in an amount that would cause its net tangible assets to be less than \$5,000,001 (so that it does not then become subject to the SEC's "penny stock" rules) or any greater net tangible asset or cash requirement which may be contained in the agreement relating to the Business Combination. If the Company seeks stockholder approval of the Business Combination, the Company will proceed with a Business Combination if a majority of the outstanding shares voted are voted in favor of the Business Combination, or such other vote as required by law or stock exchange rule. If a stockholder vote is not required by applicable law or stock exchange listing requirements and the Company does not decide to hold a stockholder vote for business or other reasons, the Company will, pursuant to its second amended and restated certificate of incorporation (the "Certificate of Incorporation"), conduct the redemptions pursuant to the tender offer rules of the U.S. Securities and Exchange Commission ("SEC") and file tender offer documents with the SEC prior to completing a Business Combination. If, however, stockholder approval of the transaction is required by applicable law or stock exchange listing requirements, or the Company decides to obtain stockholder approval for business or other reasons, the Company will offer to redeem shares in conjunction with a proxy solicitation pursuant to the proxy rules and not pursuant to the tender offer rules. If the Company seeks stockholder approval in connection with a Business Combination, the Sponsor has agreed to vote its Founder Shares (as defined in Note 5) and any Public Shares purchased during or after the Initial Public Offering in favor of approving a Business Combination. Additionally, each Public Stockholder may elect to redeem their Public Shares without voting, and if they do vote, irrespective of whether they vote for or against the proposed transaction.

Notwithstanding the foregoing, if the Company seeks stockholder approval of a Business Combination and it does not conduct redemptions pursuant to the tender offer rules, the Certificate of Incorporation will provide that a Public Stockholder, together with any affiliate of such stockholder or any other person with whom such stockholder is acting in concert or as a "group" (as defined under Section 13 of the Securities Exchange Act of 1934, as amended (the "Exchange Act")), will be restricted from redeeming its shares with respect to more than an aggregate of 15% of the Public Shares, without the prior consent of the Company.

The holders of the Founder Shares have agreed (a) to waive their redemption rights with respect to the Founder Shares and Public Shares held by them in connection with the completion of a Business Combination and (b) not to propose an amendment to the Certificate of Incorporation (i) to modify the substance or timing of the Company's obligation to allow redemptions in connection with a Business Combination or to redeem 100% of its Public Shares if the Company does not complete a Business Combination within the Combination Period (as defined below) or (ii) with respect to any other provision relating to stockholders' rights or pre-business combination activity, unless the Company provides the Public Stockholders with the opportunity to redeem their Public Shares in conjunction with any such amendment.

---

If the Company has not completed a Business Combination within 12 months from the closing of this offering (or 15 months if we have filed a proxy statement, registration statement or similar filing for an initial business combination within 12 months from the consummation of this offering but have not completed the initial business combination within such 12-month period, or up to 21 months if we extend the period of time to consummate a business combination, at the election of the Company by two separate three month extensions, subject to satisfaction of certain conditions, including the deposit of up to \$862,500 (\$0.10 per unit in either case) for each three month extension, into the trust account, or as extended by the Company's stockholders in accordance with our amended and restated certificate of incorporation), the Company will (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than ten business days thereafter, redeem the Public Shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the Trust Account, including interest earned on the funds held in the Trust Account and not previously released to pay taxes (less up to \$100,000 of interest to pay dissolution expenses), divided by the number of then outstanding Public Shares, which redemption will completely extinguish Public Stockholders' rights as stockholders (including the right to receive further liquidating distributions, if any), and (iii) as promptly as reasonably possible following such redemption, subject to the approval of the Company's remaining stockholders and the Company's board of directors, dissolve and liquidate, subject in each case to the Company's obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law. There will be no redemption rights or liquidating distributions with respect to the Company's warrants, which will expire worthless if the Company fails to complete a Business Combination within the Combination Period.

The holders of the Founders Shares have agreed to waive their liquidation rights with respect to the Founder Shares if the Company fails to complete a Business Combination within the Combination Period. However, if the holders of Founder Shares acquire Public Shares in or after the Proposed Public Offering, such Public Shares will be entitled to liquidating distributions from the Trust Account if the Company fails to complete a Business Combination within the Combination Period. The underwriters have agreed to waive their rights to their deferred underwriting commission (see Note 6) held in the Trust Account in the event the Company does not complete a Business Combination within the Combination Period and, in such event, such amounts will be included with the other funds held in the Trust Account that will be available to fund the redemption of the Public Shares. In the event of such distribution, it is possible that the per share value of the assets remaining available for distribution will be less than the Initial Public Offering price per Unit (\$10.00).

In order to protect the amounts held in the Trust Account, the Sponsor has agreed to be liable to the Company if and to the extent any claims by a third party for services rendered or products sold to the Company, or a prospective target business with which the Company has discussed entering into a transaction agreement, reduce the amount of funds in the Trust Account to below (i) \$10.00 per Public Share or (ii) such lesser amount per Public Share held in the Trust Account as of the date of the liquidation of the Trust Account, if less than \$10.00 per Public Share due to reductions in the value of the trust assets, in each case net of the amount of interest which may be withdrawn to pay taxes, except as to any claims by a third party who executed a waiver of any and all rights to seek access to the Trust Account and except as to any claims under the Company's indemnity of the underwriters of the Initial Public Offering against certain liabilities, including liabilities under the Securities Act of 1933, as amended (the "Securities Act"). Moreover, in the event that an executed waiver is deemed to be unenforceable against a third party, the Sponsor will not be responsible to the extent of any liability for such third-party claims. The Company will seek to reduce the possibility that the Sponsor will have to indemnify the Trust Account due to claims of creditors by endeavoring to have all vendors, service providers (except for the Company's independent registered accounting firm), prospective target businesses and other entities with which the Company does business, execute agreements with the Company waiving any right, title, interest or claim of any kind in or to monies held in the Trust Account.

### ***Liquidity and Management's Plans***

In connection with the Company's assessment of going concern considerations in accordance with Accounting Standards Update ("ASU") 2014-15, "*Disclosures of Uncertainties about an Entity's Ability to Continue as a Going Concern*," management believes that the funds which the Company has available following the completion of the Initial Public Offering will enable it to sustain operations for a period of at least one-year from the issuance date of this financial statement. Accordingly, substantial doubt about the Company's ability to continue as a going concern as disclosed in previously issued financial statements has been alleviated.

---

## ***Risks and Uncertainties***

Management is currently evaluating the impact of the COVID-19 pandemic and has concluded that while it is reasonably possible that the virus could have a negative effect on the Company's financial position, results of its operations, close of the Proposed Public Offering and/or search for a target company, the specific impact is not readily determinable as of the date of this financial statement. The balance sheet does not include any adjustments that might result from the outcome of this uncertainty.

## **NOTE 2 — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

### ***Basis of Presentation***

The accompanying balance sheet of the Company is presented in conformity with accounting principles generally accepted in the United States of America ("US GAAP") and pursuant to the rules and regulations of the SEC.

### ***Emerging Growth Company***

The Company is an "emerging growth company," as defined in Section 2(a) of the Securities Act of 1933, as amended (the "Securities Act"), as modified by the Jumpstart Our Business Startups Act of 2012, as amended (the "JOBS Act"), and it may take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not emerging growth companies including, but not limited to, not being required to comply with the independent registered public accounting firm attestation requirements of Section 404 of the Sarbanes-Oxley Act, reduced disclosure obligations regarding executive compensation in its periodic reports and proxy statements, and exemptions from the requirements of holding a nonbinding advisory vote on executive compensation and stockholder approval of any golden parachute payments not previously approved.

Further, Section 102(b)(1) of the JOBS Act exempts emerging growth companies from being required to comply with new or revised financial accounting standards until private companies (that is, those that have not had a Securities Act registration statement declared effective or do not have a class of securities registered under the Exchange Act) are required to comply with the new or revised financial accounting standards. The JOBS Act provides that a company can elect to opt out of the extended transition period and comply with the requirements that apply to non-emerging growth companies but any such election to opt out is irrevocable. The Company has elected not to opt out of such extended transition period which means that when a standard is issued or revised and it has different application dates for public or private companies, the Company, as an emerging growth company, can adopt the new or revised standard at the time private companies adopt the new or revised standard. This may make comparison of the Company's financial statements with another public company which is neither an emerging growth company nor an emerging growth company which has opted out of using the extended transition period difficult or impossible because of the potential differences in accounting standards used.

### ***Use of Estimates***

The preparation of the balance sheet in conformity with US GAAP requires the Company's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the balance sheet.

Making estimates requires management to exercise significant judgment. It is at least reasonably possible that the estimate of the effect of a condition, situation or set of circumstances that existed at the date of the balance sheet, which management considered in formulating its estimate, could change in the near term due to one or more future confirming events. Accordingly, the actual results could differ significantly from those estimates.

### ***Cash held in Trust Account***

At February 3, 2022, the Company had \$87,112,500 in cash held in the Trust Account.

---

### ***Offering Costs associated with the Initial Public Offering***

The Company complies with the requirements of the Financial Accounting Standards Board (“FASB”) ASC 340-10-S99-1 and SEC Staff Accounting Bulletin (“SAB”) Topic 5A, *Offering Costs*. Offering costs of \$475,348 consist principally of costs incurred in connection with formation of the Company and preparation for the Initial Public Offering. These costs, together with the underwriter discount of \$4,743,750, were charged to additional paid-in capital upon completion of the Initial Public Offering.

### ***Class A common stock subject to possible redemption***

The Company accounts for its common stock subject to possible redemption in accordance with the guidance enumerated in ASC 480 “*Distinguishing Liabilities from Equity*”. Common stock subject to possible redemption are classified as a liability instrument and are measured at fair value. Conditionally redeemable common stock (including shares of common stock that feature redemption rights that are either within the control of the holder or subject to redemption upon the occurrence of uncertain events not solely within the Company’s control) are classified as temporary equity. At all other times, shares of common stock are classified as stockholders’ equity. The Company’s Class A common stock features certain redemption rights that are considered by the Company to be outside of the Company’s control and subject to the occurrence of uncertain future events. Accordingly, at February 3, 2022, the Class A common stock subject to possible redemption in the amount of \$87,112,500 are presented as temporary equity, outside of the stockholders’ equity section of the Company’s balance sheet.

### ***Income Taxes***

The Company follows the asset and liability method of accounting for income taxes under ASC 740, “*Income Taxes*.” Deferred tax assets and liabilities are recognized for the estimated future tax consequences attributable to differences between the financial statements carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that included the enactment date. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount expected to be realized.

ASC 740 prescribes a recognition threshold and a measurement attribute for the financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return. For those benefits to be recognized, a tax position must be more likely than not to be sustained upon examination by taxing authorities. The Company recognizes accrued interest and penalties related to unrecognized tax benefits as income tax expense. There were no unrecognized tax benefits and no amounts accrued for interest and penalties as of February 3, 2022. The Company is currently not aware of any issues under review that could result in significant payments, accruals or material deviation from its position. The Company is subject to income tax examinations by major taxing authorities since inception.

The Company’s deferred tax assets were deemed to be de minimis as of February 3, 2022.

### ***Concentration of Credit Risk***

Financial instruments that potentially subject the Company to concentrations of credit risk consist of a cash account in a financial institution, which, at times, may exceed the Federal Depository Insurance Coverage of \$250,000. The Company has not experienced losses on this account.

---

### ***Fair Value of Financial Instruments***

Fair value is defined as the price that would be received for sale of an asset or paid to transfer of a liability, in an orderly transaction between market participants at the measurement date. US GAAP establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). These tiers include:

- Level 1, defined as observable inputs such as quoted prices (unadjusted) for identical instruments in active markets;
- Level 2, defined as inputs other than quoted prices in active markets that are either directly or indirectly observable such as quoted prices for similar instruments in active markets or quoted prices for identical or similar instruments in markets that are not active; and
- Level 3, defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions, such as valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable.

### ***Recent Accounting Standards***

In August 2020, the FASB issued Accounting Standards Update (“ASU”) No. 2020-06, “*Debt — Debt with Conversion and Other Options (Subtopic 470-20) and Derivatives and Hedging — Contracts in Entity’s Own Equity (Subtopic 815-40): Accounting for Convertible Instruments and Contracts in an Entity’s Own Equity*” (“ASU 2020-06”), which simplifies accounting for convertible instruments by removing major separation models required under current GAAP. The ASU also removes certain settlement conditions that are required for equity-linked contracts to qualify for the derivative scope exception, and it simplifies the diluted earnings per share calculation in certain areas. The Company adopted ASU 2020-06 from the Company’s inception. Adoption of the ASU did not impact the Company’s financial position, results of operations or cash flows.

Management does not believe that any recently issued, but not yet effective, accounting standards, if currently adopted, would have a material effect on the Company’s financial statement.

### **NOTE 3 — INITIAL PUBLIC OFFERING**

Pursuant to the Initial Public Offering, the Company sold 7,500,000 Units at a price of \$10.00 per Unit generating gross proceeds to the Company in the amount of \$75,000,000. Each Unit consists of one share of Class A common stock, one-half of one redeemable warrant (“Public Warrant”) and one right. Each whole Public Warrant entitles the holder to purchase one share of Class A common stock at a price of \$11.50 per share, subject to adjustment (see Note 7). Each right entitles the holder thereof to receive one-tenth (1/10) of one share of Class A common stock upon the consummation of an initial business combination.

On February 3, 2022, the underwriters purchased an additional 1,125,000 Units pursuant to the full exercise of the over-allotment option. The Units were sold at an offering price of \$10.00 per Unit, generating additional gross proceeds to the Company of \$11,250,000.

### **NOTE 4 — PRIVATE PLACEMENTS**

Simultaneously with the closing of the Initial Public Offering, the Sponsor purchased an aggregate of 440,000 Private Placement Units at a price of \$10.00 per Private Placement Unit generating gross proceeds in the amount of \$4,400,000. In connection with the exercise of the over-allotment option, the Sponsor an additional 33,750 Private Placement Units at a purchase price of \$10.00 per Unit for total gross proceeds of \$337,500. Each Private Placement Unit is comprised of one Class A share, one-half of one warrant and one right. Each private placement right entitles the holder thereof to receive one-tenth (1/10) of one share of Class A common stock upon the consummation of an initial business combination. Each whole private placement warrant is exercisable to purchase one share of Class A common stock at a price of \$11.50 per share, subject to adjustment (see Note 7).

---

The proceeds from the sale of the Private Placement Units were added to the net proceeds from the Initial Public Offering held in the Trust Account. If the Company does not complete a Business Combination within the Combination Period, the proceeds from the sale of the Private Placement Units held in the Trust Account will be used to fund the redemption of the Public Shares (subject to the requirements of applicable law) and the Private Placement Warrants will expire worthless. The Private Placement Warrants (including the Class A common stock issuable upon exercise of the Private Placement Warrants) will not be transferable, assignable or salable until 30 days after the completion of an Initial Business Combination, subject to certain exceptions.

## **NOTE 5 — RELATED PARTIES**

### ***Founder Shares***

On November 8, 2021, the Sponsor received 2,156,250 shares of the Company's Class B common stock (the "Founder Shares") for \$25,000. The Founder Shares include an aggregate of up to 281,250 shares subject to forfeiture to the extent that the underwriters' over-allotment is not exercised in full or in part, so that the number of Founder Shares will equal, on an as-converted basis, approximately 20% of the Company's issued and outstanding shares of common stock after the Initial Public Offering (excluding the placement units and underlying securities). In connection with the exercise of the underwriters' overallotment option, these shares are no longer subject to forfeiture.

The holders of the Founder Shares have agreed, subject to limited exceptions, not to transfer, assign or sell any of the Founder Shares until the earlier to occur of: (A) one year after the completion of a Business Combination and (B) subsequent to a Business Combination, (x) if the last reported sale price of the Class A common stock equals or exceeds \$12.00 per share (as adjusted for stock splits, stock capitalizations, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after a Business Combination, or (y) the date on which the Company completes a liquidation, merger, capital stock exchange or other similar transaction that results in all of the Public Stockholders having the right to exchange their shares of common stock for cash, securities or other property.

### ***Promissory Note — Related Party***

On November 8, 2021, the Sponsor issued an unsecured promissory note to the Company (the "Promissory Note"), pursuant to which the Company may borrow up to an aggregate principal amount of \$300,000. The Promissory Note is non-interest bearing and payable on the earlier of (i) May 8, 2022, or (ii) the consummation of the Proposed Public Offering. As of February 3, 2022, there was nothing outstanding under the Promissory Note.

### ***Advances from Related Party***

The Sponsor paid certain offering costs on behalf of the Company and advanced working capital to the Company. These advances are due on demand and are non-interest bearing. As of February 3, 2022, \$210,687 was due to the related party.

### ***General and Administrative Services***

Commencing on the date the Units are first listed on the Nasdaq, the Company has agreed to pay the Sponsor a total of \$10,000 per month for office space, utilities and secretarial and administrative support for up to 24 months. Upon completion of the Initial Business Combination or the Company's liquidation, the Company will cease paying these monthly fees.

### ***Related Party Loans***

In order to finance transaction costs in connection with a Business Combination, the Sponsor or an affiliate of the Sponsor, or certain of the Company's officers and directors may, but are not obligated to, loan the Company funds as may be required ("Working Capital Loans"). Such Working Capital Loans would be evidenced by promissory notes. The notes may be repaid upon completion of a Business Combination, without interest, or, at the lender's discretion, up to \$1,500,000 of the notes may be converted upon completion of a Business Combination into units at a price of \$10.00 per unit. Such units would be identical to the Private Placement Units. In the event that a Business Combination does not close, the Company may use a portion of proceeds held outside the Trust Account to repay the Working Capital Loans but no proceeds held in the Trust Account would be used to repay the Working Capital Loans. As of February 3, 2022, there were no amounts outstanding under the Working Capital Loans.

---

## NOTE 6 — COMMITMENTS AND CONTINGENCIES

### **Registration Rights**

The holders of the Founder Shares, Private Placement Warrants and warrants that may be issued upon conversion of Working Capital Loans (and any shares of common stock issuable upon the exercise of the Private Placement Warrants or warrants issued upon conversion of the Working Capital Loans and upon conversion of the Founder Shares) will be entitled to registration rights pursuant to a registration rights agreement to be signed prior to or on the effective date of Initial Public Offering requiring the Company to register such securities for resale. The holders of these securities will be entitled to make up to three demands, excluding short form registration demands, that the Company register such securities. In addition, the holders have certain “piggy-back” registration rights with respect to registration statements filed subsequent to completion of a Business Combination and rights to require the Company to register for resale such securities pursuant to Rule 415 under the Securities Act. However, the registration rights agreement provides that the Company will not be required to effect or permit any registration or cause any registration statement to become effective until the securities covered thereby are released from their lock-up restrictions. The Company will bear the expenses incurred in connection with the filing of any such registration statements.

### **Underwriting Agreement**

The Company granted the underwriters a 45-day option from the date of Initial Public Offering to purchase up to 1,125,000 additional Units to cover over-allotments, if any, at the Initial Public Offering price less the underwriting discounts and commissions. On February 3, 2022, the underwriters elected to fully exercise their over-allotment option. The Units were sold at an offering price of \$10.00 per Unit, generating additional gross proceeds to the Company of \$11,250,000.

The underwriters were paid a cash underwriting discount of \$0.20 per Unit, or \$1,725,000 in the aggregate, upon the closing of the Initial Public Offering. In addition, the underwriters will be entitled to a deferred fee of \$0.35 per Unit, or \$3,018,750 in the aggregate. The deferred fee will become payable to the underwriters from the amounts held in the Trust Account solely in the event that the Company completes a Business Combination, subject to the terms of the underwriting agreement.

## NOTE 7 — STOCKHOLDERS' EQUITY

**Preferred Stock** — The Company is authorized to issue 1,000,000 shares of preferred stock with a par value of \$0.0001 per share. As of February 3, 2022, there were no shares of preferred stock issued or outstanding.

**Class A Common Stock** — The Company is authorized to issue 50,000,000 shares of Class A common stock with a par value of \$0.0001 per share. Holders of Class A common stock are entitled to one vote for each share. As of February 3, 2022, there were 473,750 shares of Class A common stock issued and outstanding. As of February 3, 2022, there were 8,625,000 shares of the Class A Common Stock that were classified as temporary equity in the accompanying balance sheet.

**Class B Common Stock** — The Company is authorized to issue 5,000,000 shares of Class B common stock with a par value of \$0.0001 per share. Holders of Class B common stock are entitled to one vote for each share. As of February 3, 2022, there were 2,156,250 shares of Class B common stock issued and outstanding.

Only holders of the Class B common stock will have the right to vote on the election of directors prior to the Business Combination. Holders of Class A common stock and holders of Class B common stock will vote together as a single class on all matters submitted to a vote of our stockholders except as otherwise required by law. In connection with our initial business combination, we may enter into a stockholders agreement or other arrangements with the stockholders of the target or other investors to provide for voting or other corporate governance arrangements that differ from those in effect upon completion of this offering.

---

The shares of Class B common stock will automatically convert into Class A common stock at the time of a Business Combination, or earlier at the option of the holder, on a one-for-one basis, subject to adjustment. In the case that additional shares of Class A common stock, or equity-linked securities, are issued or deemed issued in excess of the amounts issued in the Proposed Public Offering and related to the closing of a Business Combination, the ratio at which shares of Class B common stock shall convert into shares of Class A common stock will be adjusted (unless the holders of a majority of the then-outstanding shares of Class B common stock agree to waive such adjustment with respect to any such issuance or deemed issuance) so that the number of shares of Class A common stock issuable upon conversion of all shares of Class B common stock will equal, in the aggregate, on an as-converted basis, 20% of the sum of the total number of all shares of common stock outstanding upon the completion of Proposed Public Offering (excluding the placement units and underlying securities).

Only holders of the Class B common stock will have the right to vote on the election of directors prior to the Business Combination. Holders of Class B common stock will vote together as a single class on all matters submitted to a vote of our stockholders except as otherwise required by law. In connection with our initial business combination, we may enter into a stockholders agreement or other arrangements with the stockholders of the target or other investors to provide for voting or other corporate governance arrangements that differ from those in effect upon completion of this offering.

**Rights** - Except in cases where the Company is not the surviving company in a business combination, each holder of a right will automatically receive one-tenth (1/10) of one share of common stock upon consummation of the initial business combination. The Company will not issue fractional shares in connection with an exchange of rights. Fractional shares will either be rounded to the nearest whole share or otherwise addressed in accordance with Section 155 of the Delaware General Corporation Law, as further described herein. We will make the determination of how we are treating fractional shares at the time of our initial business combination and will include such determination in the proxy materials we will send to stockholders for their consideration of such initial business combination.

**Warrants** — Public Warrants may only be exercised for a whole number of shares. No fractional warrants will be issued upon separation of the Units and only whole warrants will trade. The Public Warrants will become exercisable on the later of (a) 30 days after the completion of a Business Combination and (b) 12 months from the closing of the Proposed Public Offering. The Public Warrants will expire five years after the completion of a Business Combination or earlier upon redemption or liquidation.

The Company will not be obligated to deliver any shares of Class A common stock pursuant to the exercise of a warrant and will have no obligation to settle such warrant exercise unless a registration statement under the Securities Act covering the issuance of the shares of Class A common stock issuable upon exercise of the warrants is then effective and a current prospectus relating to those shares of Class A common stock is available, subject to the Company satisfying its obligations with respect to registration, or a valid exemption from registration is available. No warrant will be exercisable for cash or on a cashless basis, and the Company will not be obligated to issue any shares to holders seeking to exercise their warrants, unless the issuance of the shares upon such exercise is registered or qualified under the securities laws of the state of residence of the exercising holder, or an exemption from registration is available.

The Company has agreed that as soon as practicable, but in no event later than 15 business days after the closing of a Business Combination, the Company will use its commercially reasonable efforts to file, and within 60 business days following a Business Combination to have declared effective, a registration statement covering the issuance of the shares of Class A common stock issuable upon exercise of the warrants and to maintain a current prospectus relating to those shares of Class A common stock until the warrants expire or are redeemed. Notwithstanding the above, if the Class A common stock is at the time of any exercise of a warrant not listed on a national securities exchange such that it satisfies the definition of a “covered security” under Section 18(b)(1) of the Securities Act, the Company may, at its option, require holders of Public Warrants who exercise their warrants to do so on a “cashless basis” in accordance with Section 3(a)(9) of the Securities Act and, in the event the Company so elects, the Company will not be required to file or maintain in effect a registration statement, but will use its commercially reasonable efforts to register or qualify the shares under applicable blue sky laws to the extent an exemption is not available.

---

**Redemption of Warrants When the Price per Share of Class A Common Stock Equals or Exceeds \$18.00** — Once the warrants become exercisable, the Company may redeem the outstanding Public Warrants:

- in whole and not in part;
- at a price of \$0.01 per Public Warrant;
- upon a minimum of 30 days' prior written notice of redemption, or the 30-day redemption period to each warrant holder; and
- if, and only if, the last reported sale price of the Class A common stock equals or exceeds \$18.00 per share (as adjusted for stock splits, stock dividends, reorganization, recapitalizations and the like) for any 20 trading days within a 30-trading day period ending on the trading day prior to the date on which the Company sends the notice of redemption to warrant holders.

If and when the warrants become redeemable by the Company, the Company may exercise its redemption right even if it is unable to register or qualify the underlying securities for sale under all applicable state securities laws.

If the Company calls the Public Warrants for redemption, as described above, its management will have the option to require any holder that wishes to exercise the Public Warrants to do so on a "cashless basis," as described in the warrant agreement. The exercise price and number of common stock issuable upon exercise of the Public Warrants may be adjusted in certain circumstances including in the event of a stock dividend, extraordinary dividend or recapitalization, reorganization, merger or consolidation. However, except as described below, the Public Warrants will not be adjusted for issuances of common stock at a price below its exercise price. Additionally, in no event will the Company be required to net cash settle the Public Warrants. If the Company is unable to complete a Business Combination within the Combination Period and the Company liquidates the funds held in the Trust Account, holders of Public Warrants will not receive any of such funds with respect to their Public Warrants, nor will they receive any distribution from the Company's assets held outside of the Trust Account with respect to such Public Warrants. Accordingly, the Public Warrants may expire worthless.

The Private Placement Warrants will be identical to the Public Warrants underlying the Units being sold in the Proposed Public Offering except the Private Placement Warrants (including the Class A common stock issuable upon exercise of the Private Placement Warrants) will not be transferable, assignable or salable until 30 days after the completion of an Initial Business Combination, subject to certain exceptions.

#### **NOTE 8 — SUBSEQUENT EVENTS**

The Company evaluated subsequent events and transactions that occurred after the balance sheet date up to the date that the financial statement was issued. Based upon this review the Company did not identify any subsequent events that would have required adjustment or disclosure in the financial statement.

---
